

A lush garden scene featuring a variety of flowers. In the foreground, there are tall, dense clusters of bright yellow flowers, possibly Golden Rods, and several white, flat-topped flowers with delicate petals. The background is filled with numerous purple flowers, likely Asters, and more yellow blooms. The overall scene is vibrant and colorful, with a soft focus on the background flowers.

*Welcome to Troy*

## ***Troy is like being home.***

We've carefully curated this book to give you our insider feel into this town.

Troy is a beautiful combination of nature reservations, hometown stores, and friendly people. We hope this quintessential mid-western town, and our quaint historic home, will have you coming back time, and time again.

## *A glimpse into the history*

Troy is the county seat for Miami County Ohio. It was founded in 1808, just 5 years after Ohio became a state. With its location being on the Great Miami River, the area rapidly grew.

Troy is home to WACO airfield, which was the leading aircraft manufacturer in civilian aircrafts in the US from 1928-1935. The WACO Air Museum and Aviation learning center are still found in Troy and can be toured.

Another well known name is HOBART manufacturing company. It was founded and still resides in Troy. The company is known for commercial food processing mixers, coffee mills, and meat choppers.

# *Food and Drinks*

## **The Caroline**

Classic local fare, and a nice meal out. This restaurant on the corner is hard to beat.
